1. This Office action is in response to the after final amendment filed 11/4/04 and entered, and the telephonic interview of 11/15/04.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the claims: in claim 3, first line, change "Claim 2" to --claim 1--.

In claim 1, l. 3, after "containing" insert --metal--; in l. 4 delete "a" before "zirconium". In the next to last line insert --are-- before "hydrogen", --a-- before "halogen", and in the last line insert --a-- before "heteroatom".

3. Authorization for this examiner's amendment was given in a telephone interview with Kevin Faulkner, Esq., on 11/15/04.

4. The following is an examiner's statement of reasons for allowance: the above examiner's amendments in conjunction with those made by applicants obviate the remaining formal grounds of rejection against the present claims. Schrock is no longer valid prior art due to amendment of the present claims. Although both Liang and McConville teach compounds reading on the present Group 15 metal compound, neither fairly discloses or teaches combination of this compound with a zirconium metallocene. Sugimura, while disclosing a combination of a zirconium metallocene and a zirconium group 15 metal compound, prefers titanium for the group 15 metal compound and in only one instance of some 50 compounds has two aryl groups on the terminal nitrogen atoms, yet even in that compound it is not disclosed or suggested that the central nitrogen atom bonds to the metal as the current claims require.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Pasterczyk whose telephone number is 571-272-1375. The examiner can normally be reached on M-F from 9 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached at 571-272-1362. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
